

SECTION D

**Railroads, Public
Service Entities,
Car Lines, and
Air Carrier Flight
Equipment
Property Tax**

BASIC PROVISIONS AND TAX BASE OF THE RAILROADS, PUBLIC SERVICE ENTITIES, CARLINES, AND AIR CARRIER FLIGHT EQUIPMENT PROPERTY TAX LAWS

There are certain types of property centrally assessed by the Property Tax Administrator, for property tax purposes. Companies owning such property are required to furnish information annually, on prescribed forms, to the Property Tax Administrator. Taxable value has been defined to be actual value for real property and net book value for tangible depreciable personal property, excluding registered motor vehicles, which is determined by using a statutory method.

Railroads

Nebraska Law, Chapter 77, Article 6, provides for the Property Tax Administrator to value the operating property of any company owning, controlling, or operating property used for railroad purposes. Companies may be exempted by their status as governmental subdivisions or not-for-profit organizations under section 77-202.

The Property Tax Administrator shall ascertain the total taxable value of the railroad company, including real, franchise, and net book personal property, attributable to Nebraska. The Property Tax Administrator apportions the railroad's taxable value by taxing subdivision based on a statutory formula, as follows: (1) five percent is distributed to all taxing subdivisions where the railroad company has investment in general office buildings or machine and repair facilities; and (2) the balance is distributed to all taxing subdivisions based on 50 percent track mileage and fifty percent traffic density. The value per mile of main track shall equal twice the value per mile of side track. The apportioned value is certified by the Property Tax Administrator to the county assessor for assessment and tax collection.

Public Service Entities

Nebraska Law, Chapter 77, Article 8, provides for the Property Tax Administrator to determine the total taxable value of public service entities, organized for profit under the laws of this state or any other state or government and engaged in the business of waterworks, electrical power, gas works, telecommunications, and pipeline transmissions. Generally, the entities affected by this law fall into three groups: telecommunications, pipeline companies, and certain utility companies. Other organizations mentioned in the statute either no longer exist or are exempted by their status as governmental subdivisions or not-for-profit organizations under section 77-202.

The Property Tax Administrator shall ascertain the total taxable value, including real, franchise, and net book personal property value, attributable to Nebraska.

The Property Tax Administrator distributes the public service entity's taxable value to the various taxing subdivisions based on a ratio of the public service entity's original cost of all operating property located in the taxing subdivision compared to the original cost of all operating property located in the

state. The Property Tax Administrator certifies the distributed taxable value of public service entities to the county assessor for assessment and tax collection at the local government level.

Car Line Companies

Car line company assessment and taxation laws are set out in sections 77-679 through 77-693. A car line company shall mean any person, other than a railroad company, owning or operating any railroad cars of any description through, in, or into the State of Nebraska. The Property Tax Administrator shall ascertain the total taxable value, i.e., net book personal property value of the car line company's cars attributable to Nebraska. The Property Tax Administrator shall levy against the value assessed, for property tax purposes, at a rate equal to the state's average tax rate. The taxes are payable to the Property Tax Administrator who remits the same, less a three percent collection fee, to the State Treasurer for distribution to the counties. The car line taxes are distributed among the various taxing subdivisions based in proportion to all railroad taxes levied pursuant to section 77-684. The collection fee is remitted to the State Treasurer for credit to the Department of Property Assessment & Taxation Cash Fund.

Air Carrier Flight Equipment

Nebraska sections 77-1245 through 77-1250.05 provide for the assessment and taxation of air carriers. An air carrier shall mean any person, firm, or assignee, engaged in interstate carriage of persons or cargo for hire by aircraft. The Property Tax Administrator shall ascertain the total taxable value, i.e., net book personal property value of the air carrier's flight equipment attributable to Nebraska. The Property Tax Administrator shall levy against the value assessed, for the property tax purposes, at a rate equal to the state's average tax rate. The taxes are payable to the Property Tax Administrator who remits the same, less a three percent collection fee, to the State Treasurer for distribution to the counties. The air carrier taxes are distributed to the counties as a credit to the county general fund proportionate to the amount the total property taxes levied in the county bears to the total property taxes levied in the state as a whole. The collection fee is remitted to the State Treasurer for credit to the Department of Property Assessment & Taxation Cash Fund.
